Town Planning

As expert recruiters within the Town Planning Industry, we are widely recognised as market leaders within this sector. We have an excellent network of contacts across the country and our experienced consultants offer full UK coverage from our offices in Bristol, London and Leeds. We work with a variety of organisations including planning consultancies, property consultancies, environmental consultancies, developers, housebuilders, property companies, retailers, architectural and design led practices, local authorities and other government organisations.

We also support, attend and sponsor many events with professional, industry related organisations such as the RTPI and the Young Planners Network.

The background of the slide features a collection of items related to urban planning and architecture. In the foreground, there are architectural blueprints with various lines and diagrams. A blue calculator is positioned on the right side, and a wooden pencil lies horizontally across the bottom left. In the upper left, a small, white model of a house with a dark roof is visible. The overall scene is set against a light blue background with a soft, out-of-focus effect.

Our experienced team recruits Town Planners from graduate to equity partner and service director level within permanent, interim and contract positions.

- Residential

Client Testimonials...

"I have used Beach Baker to provide recruitment services for planning consultants and found them to be very personable and professional. They have always provided good candidates promptly and contacted me after recruitment to ensure they have settled in well."

Planning Director, Alder King Property Consultants

"I cannot recommend Beach Baker highly enough. Their professional contacts are extensive and they will put in the extra effort needed to provide you with the best chance in a search for a new role. Throughout the recruitment process I felt that I had been represented in a diligent and positive manner. Time was taken to discuss what type of role would be suitable for me by assessing my professional strengths and the direction I wanted to move in. This put me at ease, safe in the knowledge that any roles I was put forward for would be challenging but appropriate for my experience level."
